

Surgeons Helping Surgeons

Thank you to these SightLife Global Surgeon Champions, who support the training of fellow corneal surgeons around the world.

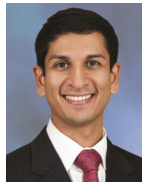

By supporting the training of more corneal surgeons in developing countries through financial contributions to SightLife's nonprofit Surgeon Training Program, these physicians are building the capacity of surgeons to restore sight to patients waiting for a corneal transplant.

Join us! By becoming a Global Surgeon Champion, your contribution will enable training for one or more surgeons in developing countries — to restore sight and restore lives for the corneal blind around the world.

Your tax-deductible gift of just \$1,100 provides training for a corneal surgeon in India that allows them to perform up to 100 transplants per year. To learn more, contact Dan Johnson at Dan.Johnson@SightLife.org or at 206.838.4642
